# WELCOME TO THE GREENHOUSE THAT DOES MORE THAN GROW.

ACD® greenhouses and garden rooms are little oases in your garden where life slows down for a moment. Not perfect, not insulated, but beautifully pure. You hear the rain, smell the earth, and feel both outside and sheltered at the same time.

**ACD® offers space to enjoy.  
Nature, light, and each other.**

## A PLACE WITH A STORY

Imagine this: it's Saturday. The world keeps moving, but you don't. You slide the door open and step inside barefoot. Dew still clings to the glass. Your greenhouse is bathed in morning light, warm, quiet, gentle.

In the corner hangs a plant your grandmother once gave you. On the table, a half-finished puzzle waits. Outside, birds sing like it's their job.

Come evening, the same space becomes something else entirely. A glass of wine. Friends who decide to stay a little longer. A sweater to keep the chill away.

Life doesn't have to be grand to feel full. Sometimes, a greenhouse, with just enough comfort and perfectly imperfect, is exactly what you need.

## THOUGHTFUL DOWN TO THE LAST DETAIL

At ACD®, we don't just talk about a greenhouse or garden room. Every detail is carefully considered, from the sustainably coated aluminum to the 4 mm thick safety glass. Even the foundation, bolts, and tension rods are thoughtfully engineered.

You feel it when you open the door, you see it in the finish. Everything just fits.

**This is quality you don't just see,  
it's something you experience for years to come.**

EXPERIENCE  
THE POWER OF  
A TRUE ACD®  
GREENHOUSE  
OR GARDEN  
ROOM.

## ACD® GARDEN ROOMS WHERE AESTHETICS AND FUNCTIONALITY COME TOGETHER.

The T-shaped garden rooms combine a sense of space with smart design. The central living area is flanked by extended sections, making it perfect for year-round use and relaxation. This unique layout maximizes natural light and creates an open connection to the garden.

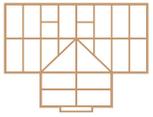

The garden rooms with storage offer the best of both worlds: a comfortable seating area and a practical, enclosed storage space. Ideal for garden tools, bikes, or firewood, everything neatly tucked away without compromising on style.

For those who love charm and character, the Victorian garden rooms are the perfect choice. With their elegant lines and authentic look, they bring timeless elegance to any outdoor space.

Crafted from durable aluminum and fitted with safety glass, they are not only beautiful but also weather-resistant and low-maintenance.

No matter which style you choose, an ACD® greenhouse or garden room brings quality, comfort, and character to your home, creating a space you'll love to enjoy every single day.

## T-SHAPED GARDEN ROOM

ACD®'s T-shaped garden rooms combine elegance with functionality. The unique layout offers a spacious, light-filled seating area, with side sections ideal for storage, plants, or extra seating.
