Project & construct

In addition to traditional applications and creative approaches, greenhouses and garden rooms can be integrated into uncommon locations or be part of new construction and renovation projects. With this diversity of possibilities, our glasshouses are not only functional but also add aesthetic value to diverse spaces.

From small greenhouses and garden rooms for enjoying the outdoors to multipurpose relaxation spaces as well as large-scale projects. ACD® lets reality and fantasy meet. In the world of project construction, it is very important to build responsibly, environmentally consciously and sustainably. This means that we too consider the impact of our construction activities on the environment and strive for a responsible approach to the construction process.

DURABLE MATERIALS SUCH AS ALUMINIUM AND SAFETY GLASS
CONTRIBUTE TO A PLEASANT AND SPACIOUS EXPERIENCE.

LARGE PROJECTS CONTRIBUTE TO OPTIMISING WORKSPACES AND
RELAXATION AREAS

SELF-SUPPORTING FOUNDATION ENSURES EASY INTEGRATION OF YOUR PROJECT
WITHOUT COMPLEX AND LARGE INVESTMENTS

PROJECT & CONSTRUCTION

Durable and high-quality spaces that can be perfectly in synergy with project construction, renovation projects and meet your personal needs and requirements.

MODELS

ACD® offers several standard models. There are also several options in terms of shapes, each with its advantages. Be sure to ask about our barrier-free options. Enquire at ACD®.

Greenhousing & tiny house

Space is precious and a greenhouse helps make the most of it. Traditional outdoor spaces are seasonal but with a greenhouse or garden room, you can enjoy them all year round. Your own little space to spend time in.

More and more people are striving to make their living environment greener and more environmentally friendly. With ACD®'s glasshouses, green building and living becomes a feasible and sustainable reality. Besides installing solar panels as well as water infiltration wells to reduce your carbon footprint, our glasshouses allow all natural elements to come together. It is not only beautiful, but also good for you and your environment.

THE HIGH WALLS CREATE AN OPEN AND SPACIOUS FEELING, CREATES TRANQUILLITY AND CONTRIBUTES TO MENTAL AND PHYSICAL HEALTH.

LIGHT-RICH SAFETY GLASS MAXIMISES NATURAL LIGHT, INCREASES PRODUCTIVITY BUT ALSO CONNECTION WITH THE OUTSIDE WORLD.

GREENHOUSING & TINY HOUSE

Your own little greenhouse, your own tiny house to relax, work, or just enjoy but still in contact with your loved ones and your environment.

Industrial solutions

With our innovative greenhouses, we offer the ability to quickly and efficiently create dust-free spaces within your warehouse or storage area. This extra space can serve as office space, workshop or even a showroom, increasing your operational flexibility and efficiency without the need to heat the entire warehouse during colder periods.

ACD® greenhouses allow you to create tailor-made solutions that perfectly suit the specific needs of your business. Take advantage of natural light and create a comfortable working environment for your staff, while reducing operational costs. Discover how ACD® greenhouses can transform your premises and provide the extra space you need for smooth and efficient operations.

BY USING LIGHT-RICH SAFETY GLASS, YOU STAY IN TOUCH WITH YOUR WORKING ENVIRONMENT AND EMPLOYEES.

YOU CAN ARRANGE THE OPEN SPACE YOURSELF ACCORDING TO YOUR OWN NEEDS AND REQUIREMENTS, FLEXIBLE AND MODULAR.

EASY TO INSTALL THANKS TO THE SELF-SUPPORTING FOUNDATION AND EASY TO MAINTAIN AFTERWARDS.

INDUSTRIAL SOLUTIONS

With its simple structure and flexibility, you can increase productivity and efficiency in no time.
